

MyDVD®

VIDEO LAB 10

Easy Video Editing and DVD Creation

Edit and create movies

Upload to YouTube™

Produce stunning slideshows

Over 30 DVD menu templates, transitions and effects

Movie Magic Made Simple

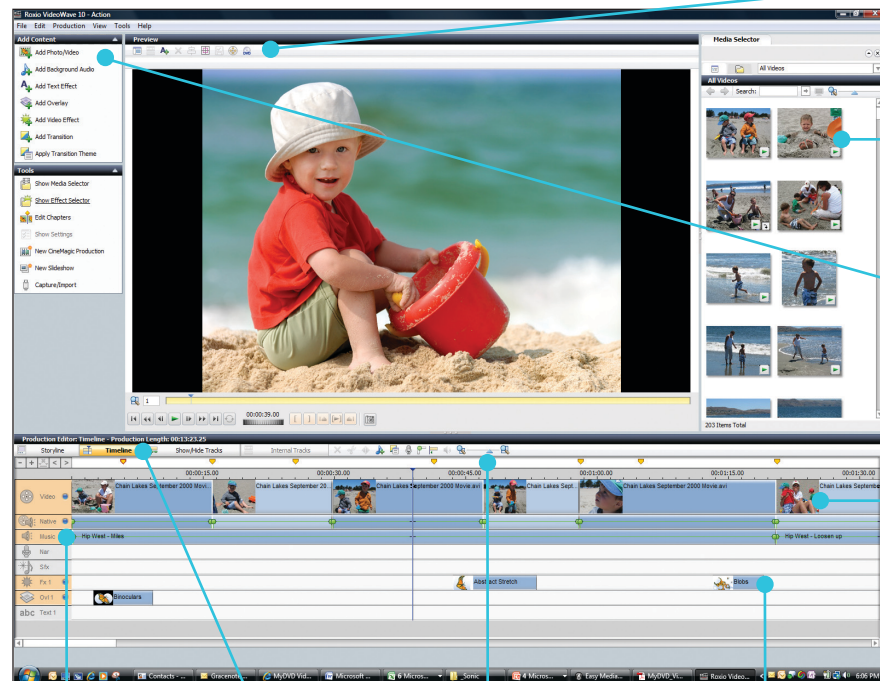

Whether you're an old pro or have never edited video before, you'll instantly feel right at home with MyDVD® Video Lab 10.

Beginners will love using the step-by-step guides that help you create finished projects with just a few clicks. More experienced users can choose from professional-level tools for customizing their productions.

Ready to edit like the pros?

Video Lab has all the tools you'll need.

When you're ready to roll up your sleeves and do some serious editing, Video Lab 10's VideoWave® capabilities give you simplified access to all the tools that are the mainstay of professional editors—including a timeline that supports up to 32 overlays, as well as audio and text effect tracks, and much more.

Burn to DVD or save to hard disk.

Dockable media and effects selector.

Add video or photos, or import from over 100 analog or digital devices.

Timeline and Storyboard views help you lay out your project.

Edit and clean audio.

32 track timeline.

Timeline chapter markers and multi-trim.

Add overlays and effects.

AVCHD

Have your media with you anytime, anywhere, on just about any device.

MyDVD®

Internet connection required for registration, product updates and some features. Any Internet charges are the user's responsibility.

Professional-quality results even for beginners

MyDVD® Video Lab 10 puts a complete movie editing and DVD production studio at your fingertips

It's easy to transfer video and digital photos to your PC, author DVDs, and upload videos to YouTube™ or portable devices. Video Lab 10 also makes it simple to create impressive, full-featured slideshows.

Create your own blockbuster movies in just 3 simple steps—it's CineMagic®

The Video Lab 10's CineMagic feature automatically turns your raw video clips and digital photos into a polished production. You simply identify the clips and pictures you want to use, make a few quick selections, and the program does the rest!

Set your productions to music in just minutes

Plus, built-in SmartSound® software can automatically add fully orchestrated music and sound effects with just a couple of clicks. Even novices can easily have a Hollywood-style production ready to share via email, internet, portable media player or DVD.

Wow family and friends with stunning slideshows

Transform your still photos into beautiful widescreen slide-shows with pan and zoom motion, multi-image photo collages, titles, narration and a background soundtrack.
