

# The Essential Complement to the Mac® OS and iLife®— for disc burning and so much more

**Burn** Drag, drop and go—now in High Definition (HD). Burn HD video on standard DVDs and watch it in HD on Blu-ray Disc™ players such as the PlayStation® 3.\*

- **NEW!** 20+ new DVD and Blu-ray Disc menu styles—in both fullscreen and widescreen versions

**Listen** Automatically capture, tag and add streaming music tracks to your iTunes® library.

- Digitize and restore LPs and tapes without the pops, clicks and hisses.
- **NEW!** Easily convert audiobook CDs for easy playback on most portable players—including bookmark and chapter functionality on your iPod® or iPhone™.

**Copy** With one-click disc copy, you can copy data, CD, DVD and Blu-ray Discs. Even copy dual layer DVD-Video discs on to affordable 4.7 GB single-layer discs.

- **NEW!** Archive AVCHD™ Video from camcorders to discs and keep a preview version on your Mac for easy browsing.

**Watch** Locate, convert and burn your favorite shows, music and data to CD, DVD and Blu-ray Discs, or sync to your iPhone, iPod and other mobile devices.

- **NEW!** Extract video clips from DVD-Video discs and convert them for playback on the device of your choice.\*
- **NEW!** Save Web video for offline viewing, burning to DVD or converting to other video formats.
- Watch shows and movies captured on your TiVo DVR, EyeTV tuner or other sources by streaming them to your Internet-connected iPhone or iPod Touch. Toast emails you when new shows are ready for streaming.

## System Requirements

- Macintosh computer with a PowerPC™ G4, PowerPC G5, or Intel® Processor. PowerPC G5 or Intel processor required for encoding and viewing high definition content
- 1 GB RAM
- CD, DVD, or Blu-ray recordable drive
- Mac OS X v10.5.x
- QuickTime® v7.x
- Up to 800 MB free disk space (1GB for Toast Pro) to install all components
- Up to 15 GB of temporary free disk space during usage
- Internet connection required for some functionality

\*HD video authoring functionality for DVD and Blu-ray Discs requires the purchase of the High-Def/Blu-ray Disc Plug-in. Internet connection is required.

\*\*Does not copy encrypted or protected content. USE OF THIS SOFTWARE TO MAKE ILLEGAL COPIES OF MOVIES AND OTHER CONTENT IS STRICTLY PROHIBITED.

## Toast 10 Titanium Pro delivers all the power of Toast® 10 Titanium plus Blu-ray authoring and four award-winning photo and audio applications

### Burn HD video to DVD and Blu-ray Discs™

The High-Def/Blu-ray Disc Plug-in lets you author HD video content on to standard DVDs and Blu-ray Discs. Take HD video footage from AVCHD™ camcorders, TiVo® DVRs and EyeTV tuners and create Blu-ray Discs or even standard DVDs with HD content for playback on any standard Blu-ray set top box or PlayStation® 3 game console.

### Create a custom soundtrack to add to your videos

Sonicfire™ Pro: Create professional custom soundtracks for movies and slideshows either automatically or choose from a library of music.

### Remove unwanted noises from your audio and video

BIAS SoundSoap™ SE removes unwanted noise such as wind, hiss, pops and scratches from almost any analog or digital audio or soundtrack.

### Easily add drama to your photos

LightZone™ lets you create dramatic, impactful photos with sophisticated features including zone mapping and relight. A perfect complement to Aperture and iPhoto.

### Gorgeous photo slideshows in full HD

FotoMagico™ turns pictures into a spellbinding story and presents them in stunning HD.

\$300 in extra value
