

ROXIO® *Back On Track 3*™ PLATINUM

**Dramatically reduce end-user down-time
and IT support costs with Roxio BackOnTrack.**

Protect your organization against the consequences of hardware and software failure and reduce end-user down-time from hours or days to just a few minutes! Featuring patent-pending technology, Roxio's new BackOnTrack software is the immediate, self-service solution to common PC problems, including system crashes, hardware failure, faulty software installations, end-user error and accidental data loss.

Roxio BackOnTrack Platinum has three powerful components:

Instant Restore* is Roxio's patented technology for quick, solid computer restore. Whether struck by malware or plagued by inexplicable Windows crashes, the computer is always in a position to be restored immediately, without any need for extra hardware, an Internet connection or contacting the IT department.

Benefits

- Immediate solution to Windows crashes, software collisions, incomplete uninstall, viruses, spyware, driver problems, unwanted settings, and many more system critical issues.
- Unlimited number of saved states (restore points).
- Restores a crashed system in seconds.

**Instant Restore is available as a standalone application as Roxio BackOnTrack Silver.*

Disaster Recovery backs up the entire hard drive and will easily restore it in the event of serious problems such as hardware failure.

Benefits

- Fast backup of an entire PC with disk image technology
- One-step wizard guides user to create a backup
- Custom backup individual drives and partitions
- True bare metal recovery from CD/DVD in case of hardware problems

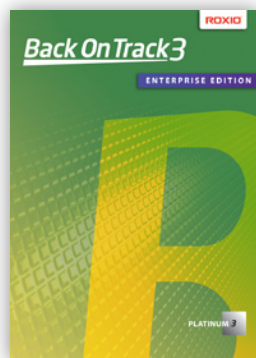

File Backup protects your organization's valuable files — financial records, presentations, graphic files, essential documents and data — against accidental or malicious damage, loss or deletion, by backing them up to CD/DVD/BD or HDD.

Benefits

- Easily add and modify categories to create backups with exactly the content most important to your organization.
- Scheduled backups run automatically.
- Secure encryption keeps important organizational data safe from unwanted access.
- Includes compression to save space on your storage devices.

Minimum System Requirements:

- Microsoft® Windows XP SP3, Windows Vista SP2 or Windows 7 (32-bit and 64-bit versions supported)
- Hard drive with at least 1 GB of free space for installation
- 512 MB or more RAM
- Internet Explorer 6.0 or greater for reading Help files
- Some features require a CD/DVD writer
- Some features require NTFS file system (if you are using an older file system you can convert to NTFS)
- Some features are not compatible with whole disk encryption software such as Safeguard Easy
- Internet connection is required for registration and product updates

Windows® 7
Windows Vista®
Windows® XP
