ROXIO

## Create a Ringtone

**Roxio Quick Sound Editor** is the easy way to create a ringtone. Why buy a ringtone, when you can create one for free from any audio you have on your hard disk? It's quick and simple.

## **Getting Started:**

**1. Launch the Roxio Media Manager.** Click the Music-Audio Tab on the Creator Home screen, and choose "Browse & Manage Media."

**2.** Choose your audio file. Browse your audio files in the Media Manager and choose the track you want to use for your ringtone. Then right-click on the file and choose "Edit with Quick Sound Editor."

**3.** Trim your ringtone. Ringtones are normally 30 seconds or less. Preview your track using the playback controls at lower left, and decide on start and end points for your ringtone.
